REVISION HISTORY

=====

Version	Date	Author	Summary of Changes
1.0	01-Jan-2021	Anil Sharma	Initial Release
2.0	14-Jun-2022	Anil Sharma	Added CDR validation rules
3.1	15-Jan-2024	Anil Sharma	Added Section 4.2 (CDR volume spike capacity requirements) per PIR of INC-2023-0094

1. PURPOSE

=====

This policy defines the operational lifecycle, timelines, validation criteria, and escalation thresholds for monthly billing cycles and CDR processing.

2. SCOPE

=====

Applies to the Invoice Rendering Engine (SVC-BILL-001), Payment Posting Adapter (SVC-BILL-002), and CDR Mediation Pipeline (SVC-MED-001).

3. POLICY STATEMENT

=====

3.1 Invoice Generation Cycle

- Invoicing occurs monthly starting on the 1st day of the month.
- CDR cutoff: 23:59:59 UTC on the last day of the month.
- CDR mediation (SVC-MED-001) must complete by 06:00 UTC on the 1st.
- Invoice rendering (SVC-BILL-001) must complete by 10:00 UTC on the 1st.
- Delays past these windows automatically trigger a P2 incident.

4. PROCEDURES

=====

4.1 CDR Validation Rules

4.1.1 Minimum CDR match rate of 99.999% is required.

4.1.2 Any reconciliation run with > 0.01% unmatched CDRs triggers a mandatory P2 investigation ticket.

4.1.3 Case Study: REC-2023-12-01 exemplifies automated reconciliation exception handling during volume spikes.

4.2 Capacity Sizing for Volume Spikes

4.2.1 Storage and compute capacity for CDR processing in Q4 must be sized for at least 300% of the Q3 daily average.

4.3 Revenue Assurance

4.3.1 Monthly reconciliation of billing data against financial collections must be completed by the 5th of the month.

4.3.2 Financial variance > 0.1% triggers an internal audit. Variance > 1% triggers executive escalation.

5. ROLES AND RESPONSIBILITIES

=====

- Billing SRE Lead (Anil Sharma): Manage invoicing engine execution and billing runs.
- Service Delivery Manager (Rajesh Venkatraman): Sign off on monthly revenue variance reports.

6. EXCEPTIONS

=====

Exceptions to timelines require prior approval from the Service Delivery Manager.

7. COMPLIANCE AND ENFORCEMENT

=====

SLA breach credits are computed automatically based on billing run delays.
