Effective Date : 01-Apr-2021
Review Date : 01-Apr-2022
Owner : KYC Platform Team
Author : Kiran Kumar
Approved By : Rajesh Venkatraman, Service Delivery Manager (NexaTel)
Classification : Internal – NexaTel Managed Services
Last Revised : 10-Oct-2023

REVISION HISTORY

=====

Version	Date	Author	Summary of Changes
1.0	01-Apr-2021	Kiran Kumar	Initial Release
1.4	10-Oct-2023	Kiran Kumar	Added offline queue guidelines

1. PURPOSE

=====

This policy governs integrations with external KYC vendors to ensure compliance and high availability.

2. SCOPE

=====

Applies to the Digital KYC Adapter (SVC-KYC-001).

3. POLICY STATEMENT

=====

3.1 Vendor Failover

A minimum of two approved KYC vendors must be configured in production at all times. Single-vendor dependency for mandatory regulatory process (KYC) is a high compliance risk.

3.2 Offline Queue Workaround

In the event that all KYC vendors are unavailable, the system must support an offline KYC queue mode where subscribers are onboarded in restricted service mode pending manual KYC completion. Offline queue must be activated within 30 minutes of vendor unavailability.

3.3 Data Residency

KYC data for Indian subscribers must remain in ap-south-1. Gulf subscribers' data must remain in me-central-1. Processing in EU regions is prohibited.
